

30 Second Creative Pitch

Many new students find it difficult to meet people within their subjects and find they have no way to study or collaborate with others.

Introducing – StudyHub! StudyHub is an online interactive environment that facilitates learning and discussion among peers. It is a place where students can discuss coursework and interact with one another.

The chat feed is a place where students can talk amongst themselves, ask questions of their fellow students and get answers.

Users must use their own name and profile picture in StudyHub. This is to encourage people to learn who is in their course and get to know one another.

There is a rating system which rewards the most helpful and active members. There are also useful tools for study sessions, group management and much, much more!

StudyHub is an online interactive website that allows students to meet new friends and facilitates collaboration and study between peers.
