Any final comments or suggestions? 9 responses

looking good, keep up the good work

get the menu button in the top left working

no, looks good

Some of the pages lack back buttons that allow me to go back to the previous page. Found that I would need to press one of the 3 buttons at the bottom of the screen to go back instead, which sometimes skipped too far back.

So far it is very good and an useful app.

add an options for groups of 4 or more

Looks like a good idea

nah

The concept is good. But it seems like a bit of a mess at the moment. Perhaps after prototyping the menus could get a modernised look.
